

Transformative Research and Innovation

AFINO International Conference, August 28–30, 2024

AFINO 2024 International Conference - Programme

Day 1 - Wednesday the 28th

10:00-11:00	Registration		
11:00-12:30	Opening plenary session CSR & RRI – Past, present and future Featuring John Bessant, Vincent Blok and Siri Granum Carson Moderator: Harald Throne-Holst		
12:30-13:30	Lunch		
13:30- 15:30	Parallel sessions		
	<i>Bringing responsibility to firm practices: how?</i> Chair: Tatiana Iakovleva	<i>Transformations in the research and innovation system</i> Chair: Christian Wittrock	<i>Breaking the silence. Historical and cross-cultural perspectives on whistleblowing</i> Chair: Heidi Karlsen
15:30-15:50	Coffee break		
15:50 -16:50	Plenary session Technologies for the good life Featuring Sissel Rønning and Kate Millar - Moderator: Anne Ingeborg Myhr		
17:00 -18:15	Parallel sessions		
	<i>Early career researchers' challenges</i> Chair: Anne Blanchard & Giovanni De Grandis	<i>Mission oriented research and innovation</i> Chair: Alexander Myklebust	<i>Breaking the silence. Historical and cross-cultural perspectives on whistleblowing</i> Chair: Kristian Alm
18:30-19:00	Aperitif talk Kristian Alm and Heidi Karlsen in dialogue with Martin Bright, the journalist behind the film <i>Official Secrets</i>		
19:00	Dinner		
20:30	Film: <i>Official Secrets</i> based on the case of whistleblower Katharine Gun		

Parallel sessions – early afternoon 13:30-15:30

	Bringing responsibility to firm practices: how? L	Transformations in the research and innovation system M1	Breaking the silence. Historical and cross-cultural perspectives on whistleblowing M2
13:30	<i>Mainstreaming responsible innovation in business: a comparative systematic review of business ethics and innovation management literature</i> Agata Gurzawska	<i>De-institutionalising growth-driven innovation: theories and practices of post-growth innovation</i> Mario Pansera	<i>The whistleblowing institute and its importance for responsible innovation in Brazil</i> Victor Minervino Quintiere
13:55	<i>Are Innovation Ecosystems Supportive of Responsible Innovation?</i> Luciana Maines da Silva	<i>The Transformative Force of Action Research and Social Innovation Across Local Health and Welfare Services</i> Trude Senneseth	<i>Contemporary challenges in corporate communication in Brazil: Whistleblowing and its (non) correlation with Ethics Councils</i> Victor Minervino Quintiere
14:20	<i>Innovation Communities: creating bottom-up spaces for responsible innovation - the case of intelligent biomanufacturing</i> Alexandra Müller	<i>Which type of responsibility is needed to realize the ambitions of RRI?</i> Giovanni De Grandis	<i>Employee Dissenting Voice, Communication Climate and Risk Management: A Communication Perspective on Whistleblowing in the Workplace</i> Silvia Ravazzani & Sara Conti
14:45	<i>From Vision to Action: Empowering Innovation Managers and Technology Developers in Responsible Care Technology Innovation</i> Hilde Vandenhoudt	<i>Complex policy concepts and organizational anchorage: the case of RRI</i> Christian Wittrock	<i>How does whistleblowing legislation reconcile the right to freedom of expression with the right to manage: some lessons from Norway.</i> Anne Mette Ødegård
15:10	Discussion	Discussion	<i>The Journey of Whistleblowing in Norway: From Precursors and Emergence to Established Practice</i> Heidi Karlsen & Kristian Alm

Parallel sessions – late afternoon 17:00-18:15

	Early career researchers' challenges L	Mission oriented research and innovation M2	Breaking the silence. Historical and cross-cultural perspectives on whistleblowing M1
17:00	<i>Exploring Responsible Research and Innovation (RRI) in Biotechnology: A Systematic Literature Review</i> Olga Mikhailova	<i>REINFORCING RRI in mission contexts: lessons learned in key support and implementation activities</i> Anna Pellizzone	<i>Defining whistleblowing in context: a French case study</i> Chaima Moujahed
17:25	<i>Public Sector PhD within the Field of Education: Transformations in Research and Practice</i> Tony Burner & Anna Synnøve Hovstein	<i>Mission-critical – Mission-oriented innovation and its dis/contents</i> Cecilie Hilmer	<i>Runaway Trains and Persecuted Whistleblowers: The Consequences of Innovation without an Effective Regulator</i> Ian Garrett Bron
17:50	<i>Reflecting on fostering reflexivity for crop scientists in an interdisciplinary training centre using journalling</i> Emily A. Buddle	<i>The mission to restore our oceans and waters – experiences from Brussels to Gjøvik</i> Siri Granum Carson	<i>Understanding whistleblowing in developing countries: A case of whistleblower protection policies in Africa</i> Theresa Onaji-Benson

Transformative Research and Innovation

AFINO International Conference, August 28–30, 2024

Day 2 – Thursday the 29th

8:00-8:30	Registration (for those arriving today)		
8:30 – 10:30	Parallel sessions		
	<i>Bringing responsibility to firm practices: how?</i> Chair: Luciana Maines da Silva	<i>AI and Ethics</i> Chair: May Thorseth	<i>CRISPR for responsible animal breeding</i> Chair: Anne Ingeborg Myhr
10:30-11:00	Coffee break		
11:00-12:30	Plenary session <i>Transdisciplinarity, foresight, and the science-policy interface</i> Featuring Ulrike Felt and Riel Miller – Moderator Per Koch		
12:30-13:30	Lunch		
13:45-15:15	Interactive sessions		
	<i>Exploring the frontiers of future foods</i> Led by E. Bjørnerud & R. Helliwell	<i>Using 'Ethics in Research' cards</i> Led by A.I. Myhr & K. Millar	<i>A future literacy lab taster</i> Led by P. Koch & R. Miller
15:15-15:30	Coffee break		
15:30-17:00	Interactive sessions		
	<i>RRI Collaborations with business and researchers</i> Led by L. Ingeborgrud & V. Ski-Berg	<i>Meeting the inclusion challenge in innovation</i> Led by T. Alexandrova, E.M. Oftedal & J.H. Huang	<i>Anticipation or vision? How to be responsible?</i> Led by N. Murashova, G. De Grandis & T. Bonnevie
17:00-17:15	Coffee break		
17:15-18:30	Parallel sessions		
	<i>RRI in biotech</i> Chair: Anamika Chatterje	<i>Innovation and culture</i> Chair: Matthias Kaiser	
18:30-19:30	Long break		
19:30-20:00	Aperitif and presentation of AFINO book Jacob Dahl Rendtorff in conversation with Giovanni De Grandis & Anne Blanchard		
20:15	Conference dinner		

Parallel sessions – morning 8:30-10:30

	Bringing responsibility to firm practices: how? L	AI and Ethics M1	CRISPR for responsible animal breeding: implications for social acceptance and animal welfare? M2
8:30	<i>Integration of Responsible Innovation: A case of user inclusion in a digital healthcare firm</i> Linnea Tavakoli Hagström	<i>Digitalization of Powerlines Inspection Routine Using AI As an Infrastructuring Process</i> Zeina Othman	<i>The responsibility of experts in the public debate about genome editing</i> Siri Granum Carson
8:55	<i>Engaging Stakeholders in Healthcare Innovation: The Impact of Knowledge Types and Stages</i> Masaya Onuma	<i>Responsible AI: Evolving Bodies of Practice</i> Fabio Tollon	<i>Animal breeding projects anticipating who and what is at stake using an SDG-based sustainability assessment</i> Torill Blix
9:20	<i>Stakeholder engagement and innovation management for responsible innovation outcomes: the case of firms in digital healthcare and welfare services</i> Tatiana Iakovleva	<i>Developing trustworthy social AI</i> Heike Felzmann	<i>RRI in genome editing projects: Use of the Research Ethics cards to promote societal and ethical awareness</i> Anne Ingeborg Myhr
9:45	<i>Catalyzing Change: Leveraging Stakeholder Collaboration in Developing Innovation and Business Strategies for Wood Waste</i> Nhat Strøm-Andersen	<i>Responsible AI Implementation</i> Serinha Murgorgo	<i>Making sense, lacking agency: Public perceptions on the use and regulation of CRISPR in agriculture in Norway</i> Marit Svingen
10:10	<i>Empowering communities: the role of responsible research and innovation in social entrepreneurship</i> Jill Kickul	<i>Algorithms down from the Moral Ivory Tower: Towards an Ideal 'Non-Ideal' Theory of AI Ethics.</i> Alexander M.S. Hjorth-Johansen	<i>Enhancing upstream engagement through understanding of Australian public attitudes about gene editing in livestock production</i> Rachel A. Ankeny

Parallel sessions – late afternoon 17:15-18:30

	RRI in biotech L	Innovation and culture M1
17:15	<i>The Research Ethics cards as a RRI tool: Reflections concerning power asymmetry</i> Hedda Smedheim Bjerklund	<i>What Makes Study of Disagreements about Biotechnologies Responsible? Lessons from the Case of Golden Rice</i> Rachel A. Ankeny
17:40	<i>Exploring ethical dimensions of AI therapy design tools in Precision Oncology through SPARK: The example of the NTNU DrugLogics</i> Viviam Bermúdez	<i>Cultured meat and responsible research when the future is an illusion for financial speculation</i> Richard Helliwell
18:05	<i>Envisioning the Future of Foods: The Intersections of "Sustainability", Dietary Lifestyles and Gene Technology in Australia</i> Christina Wenzl

Transformative Research and Innovation

AFINO International Conference, August 28–30, 2024

Day 3 – Friday the 30th

8:00-8:30	Registration (for those attending only today)		
8:30 – 10:30	Parallel sessions		
	<i>Corporate responsibility for the 21st century</i> Chair: Caroline D. Ditlev-Simonsen & Atle Middtun	<i>Are inter- and trans-disciplinarity living up to their promise in RRI?</i> Chair: Harald Throne-Holst	
10:30 10:50	Coffee break		
10:50-12:10	Plenary session & closing <i>The path towards responsible AI</i> Featuring Margit Sutrop, Christian Fieseler and May Thorseth Moderator: Matthias Kaiser		
12:15-13:15	Lunch		
13:15-15:00	Parallel sessions		
	<i>Bringing responsibility to firm practices: how?</i> Chair: Arnt Fløysand	<i>Are inter- and trans-disciplinarity living up to their promise in RRI?</i> Chair: Harald Throne-Holst	<i>Innovation and culture</i> Chair: Giovanni De Grandis
	End of the conference Thank you and have a safe journey home!		

Parallel sessions – morning 8:30-10:30

	Corporate responsibility for the 21st century	Are inter- and trans-disciplinarity living up to their promise in RRI?
	M1	L
8:30	<i>Companies squeezed between autocratic and democratic regimes</i> Atle Midttun	<i>Across disciplines, to make an impact. The technological impact of boundary-spanning research projects</i> Federico Munari
8:55	<i>Circular economy through industrial symbioses – a case study from M&R</i> Kristina Kjersem & Annik Fet	<i>Who is the “we” in “The science we need for the ocean we want”?</i> Mimi Elizabeth Lam
9:20	<i>Sustainability Reports, Corporate Governance and Organizational Units</i> Stefan Wendt	<i>Students as agents of innovation and radical transformation of academia through design thinking</i> Simona Brozmanová
9:45	<i>Acting on the Norwegian Transparency act: interpretation and implementation</i> Caroline D. Ditlev-Simonsen	<i>Fostering user involvement in collaborative innovation spaces: insights from living labs</i> Judy Hong Huang
10:10	<i>The “Ghost” Perspective of the Muhammad Cartoons Controversy - the Determining Force of History</i> Heidi Karlsen, Kristian Alm & Simen Mitlid	<i>The heart of the matter with Transdisciplinarity (TD)</i> Neeraj Mistry

Parallel sessions – early afternoon 13:15-15:00

	Bringing responsibility to firm practices: how?	Are inter- and trans-disciplinarity living up to their promise in RRI?	Innovation and culture
	L	M2	M1
13:20	<i>Innovation-Quality - An approach to responsible and more sustainable innovation</i> Anna-Vanadis Faix & Stefanie Kisgen	<i>Extradisciplinarity: Incremental innovation within the disciplinary structure</i> Anissa Tanweer	<i>Mobilization, relevance and rigor: RRI as a policy concept</i> Christian Wittrock
13:45	<i>Technology Assessment of Wide Area Surveillance Systems for Addressing Societal Benefits and Challenges: An Empirical Study from Aerospace Company</i> Gül Beyza Kocamiş	<i>How sustainability and responsibility are integrated to the project life cycle</i> Veikko Ikonen	<i>Understanding responsiveness in the responsible innovation process: A case study in the Brazilian manufacturing industry</i> Luciana Maines Da Silva
14:10	<i>The role of stakeholder participation in unlocking innovation in cross border health ecosystems</i> Ingrid Adriaensen	<i>Inter- and transdisciplinary input for establishing an Intergovernmental Panel on Food Security and Sustainability</i> Matthias Kaiser	<i>Sacred RRI? The role of faith in innovation policy</i> Salah Chafik
14:35	<i>Green innovation systems, stakeholder participation and public technologies: Explaining business responses to marine pollution in costal Norway, 1960s-1990s</i> Håvard Brede Aven	<i>Reflections on Incorporating RRI Goals into Online Violence Prevention Research</i> Dante Michael Della Vella	<i>Project Archetypes: Exploring the Field Patterns of the European Research Area</i> Zane Šime
